Kachemak Bay Campus Student Association College Council Report

1. Some of the bicycles have been painted blue and gold for the bike program. They will be put out for the students when the language for the sign has been worked out.
2. The Student Association plans to build a bike rack to put under the overhang of the North wall so all the blue and gold bikes can be put out for use and other students can bring their own bikes without having to leave them in the rain.
3. The Student Association will be showing foreign films on the first and third Friday of the month starting on November 6th.
4. The Student Association has been serving free food from Two Sisters for the students on Mondays, Wednesdays and Thursdays. Food may also begin to be served on Tuesdays as well because every student has expressed great appreciation and excitement. It has been the most popular use of student fees so far.
5. Community presentations will be given at the campus as a weekly event starting in November.
6. Free flu vaccinations were provided for students on October 13th.
7. All-day documentaries will be shown for students on Fridays, beginning on the 13th.
8. A hot and cold water dispenser has been purchased for the west campus.
