

Date for DIABETES

2017 Date for Diabetes Season

Dear Alaska Business,

I am representing the American Diabetes Association as one of the bachelors participating in The 2017 DATE FOR DIABETES. This event is a major fund-raiser for the American Diabetes Association. Bachelors are responsible for putting together their own date packages and the volunteer committee helps by soliciting donations to add "extras" to the date packages.

Many local businesses participate in this unique event and we request that you consider donating goods or services or purchase advertising in the event program.

All contributions are acknowledged in the event program and bachelor sponsors are listed the corresponding date package. We expect over 300 ladies who will be ready to bid!

The funds raised at the DATE FOR DIABETES helps us provide free education, counseling and referrals, professional education, public information and screening, and a camp session for kids with diabetes among other programs. We estimate there are 68,500 Alaskans affected by diabetes and there is great demand for our services.

Thank You, your consideration is very much appreciated!

Sincerely,

Nathan Grilley
